DID YOU KNOW THAT ...

- ★ ... before Linderhof Palace was built, another building had been standing where the palace is located now? The so called "Royal Lodge", which dates from 1790, was moved at the king's request in 1874. It had already been used by Maximilian II, Ludwig's father, as a hunting lodge. Ludwig II lived in it frequently before the palace was completed. Today's exhibition in the Royal Lodge covers topics such as the building's origins as a farm, its use by the royal family and its significance as a planning office for Ludwig II's many building projects.

- ★ ... with the combination ticket "Königsschlösser" you can visit each of King Ludwig II's palaces, Linderhof Palace, Herrenchiemsee Palace and Neuschwanstein Castle once for only 40 € (special events are not included)? The combination ticket is valid for six months.

- ★ ... after comprehensive restoration measures, the Venus Grotto is scheduled for reopening to the public in summer 2025?
